ADDITIVES

**Disclaimer**  
 - Use nutrition with every watering  
 - This growing schedule has been compiled for different types of flower and fruit-bearing plants.  
 - The duration of the indicated periods depends on the plant species.

- All stated doses are indications and depend on type of plant, plant conditions, environment and light intensity.  
 - Always be guided by the EC when adjusting the doses.

- Fertilise in all irrigations if the irrigation system is automatic. Use ATA clean in a couple of irrigations every week at a dosage of 0,1 ml/l to clean pumps, filters, drippers, tanks, pipes.
